Eval Notes: On site to conduct a routine hazardous waste recycler inspection. Consent to inspect the facility was granted by Jim Hodges. Observed the facility, perimeter, and its recycling process. The facility recycles acetone in accordance with HSC 25143.2(b)(2). Per Mr. Hodges, the facility recycles approximately 5 gallons of acetone every two days. Verified recyclable materials report documentation submitted in the California Environmental Reporting System (CERS). The dumpster was inspected, and no signs of illegal dumping were observed. No violations were noted at the time of inspection. A copy of this report has been emailed to jimhodes@mac.com.

Eval Notes:

According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Please visit <https://cers.calepa.ca.gov/> to access CERS and submit your completed HMBP forms. Failure to submit HMBP forms is a violation of the California Health & Safety Code and California Code of Regulations. Progressive enforcement will be taken by this agency if a submittal/certification has not been completed within 30 days of this report.

The purpose of this off site re-inspection is to follow up on violations cited on the 10/26/2021 inspection report. To date, the facility has failed to make corrective action. Violation R004 cited on 10/26/2021 is still outstanding. Submit the Recyclable Material Report electronically on CERS for the period of 1/1/2020-12/31/2021. Notify this Agency when the report has been submitted. The facility has failed to correct the open violations. Failure to correct open violations may result in formal enforcement action. Any business that does not comply with the Hazardous Waste requirements is civilly liable to the administrating county or city in an amount not more than seventy thousand dollars (\$70,000.00) per violation, per day (H&SC 25189.2). Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste. California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Site ID: 616720
Site Name: WINN AUTOSPORTS
Violation Date: 08-19-2024
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Waste oil filters have exceeded the allowed accumulation time. The filters container had a marked accumulation start of 11/23/2022. Per Mr. Mai, there has not been a pickup since.

Evaluation:

Eval General Type: Other/Unknown
Eval Date: 05-05-2025
Violations Found: Yes
Eval Type: Other, not routine, done by local agency

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Environmental Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on April 4, 2025 that your facility was out of compliance with this requirement. Please note the following important details: 1

Evaluation:
Eval General Type: Other/Unknown
Eval Date: 05-22-2024
Violations Found: No
Eval Type: Other, not routine, done by local agency

Eval Notes: The purpose of this offsite reinspection is to follow up on a violation cited during a previous inspection. Annual training was conducted, and records were available for review. Violation 1020002 has been corrected. No outstanding violations remain. A copy of this report will be sent to Ginette.commins@sausd.us

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-29-2016
Violations Found: No
Eval Type: Routine done by local agency

Eval Notes: INSPECTOR COMMENTS: On site for routine hazardous waste inspection. Met with Camille Boden, Executive Director of Risk Management. Met with Camille at district office, she provided consent to inspect facility. On site met with Damon Guillien; Camille and Damon escorted me during inspection. Walked throughout the facility. At this time there is no hazardous waste on site. Spoke with a staff member who stated specimens are ordered at end of school year. A perimeter walk was conducted and the dumpster enclosure was observed. No signs of illegal dumping were observed. Manifest are kept at district office. Manifest were available and reviewed. No hazardous waste violations were observed during on-site inspection.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violation Date: 06-27-2019
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 07/31/2019. Accumulation time has exceeded 180 days for the five (5) 55-gallon drums of waste resist stripper; start of accumulation labeled 12/18/2018. Properly dispose of the five (5) 55-gallon drums of waste resist stripper immediately and provide the hazardous waste manifest to this agency within 30 days.

Eval Notes: 3-7-15: Read/review HMBEP in E-submit. Rejected: 1) All of your chemicals are listed at a "maximum daily volume" as less than 55 gallons. The maximum daily volume is the cumulative total gallon of each chemical added up throughout the entire facility (not a single containers). Please re evaluate these chemicals and determine if they are or are not over 55 gallons. If they are, update the daily volume, if they are not, delete from the list. 2) Your map shows cupric chloride @ 1,000 gallons. This does not match the chemical inventory. Please reconcile. 3) The chemical inventory list requires a separate chemical page for each "raw product" chemical and each "waste" chemical. Please include all "waste" chemicals that exceed the reportable quantities (55 gal, 500 lbs., 200 cu ft.) 4) Complete sections IV and V on the business owner operator page (emergency contacts). In order to abate the 10-3-14 violations, re submit for re evaluation.

On site to conduct a routine hazardous waste inspection. This facility is verified to be owned by Allied Electronic Services and currently has 5 employees. Walked throughout the facility and observed the hazardous waste storage area(s). This facility currently generates the following hazardous waste: - Resist stripper, liquid (5 x 55-gallon drums; located in indoor hazardous waste storage room) - Cupric chloride (1 x 1,000 gallon bulk tank; located outside behind building) Per Mr. Vadodaria, hazardous waste storage area(s) are inspected at least weekly. Hazardous waste manifests were available for review. Emergency response plan was posted on employee cork-board. No hazardous waste or universal waste was observed in the dumpster/enclosure area at the time of the inspection. Hazardous waste containers were closed. Employees are reported to be trained. A copy of this inspection report will be sent to: Dave Vadodaria, Vice President [Truncated]

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on 04/28/23 that your facility was out of compliance with this requirement. Please visit <https://cers.calepa.ca.gov/> to access CERS and submit your completed HMBP forms. Failure to submit HMBEP forms is a violation of the California Health & Safety Code and California Code of Regulations. Progressive enforcement will be taken by this Agency if a submittal/certification has not been completed within 30 days of this report.

Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)
Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.
Violation Notes: Returned to compliance on 10/15/2024. Employee training records for 2023/2024 were not available for review at time of inspection. The most recent training records available were dated 2021. Per Mr. Torres, annual hazardous materials training has not been documented for 2023/2024. Note: This violation is a repeat offense, having been cited before on: 06/24/2021. Discussed training and recordkeeping requirements with Mr. Torres and provided a training guidance document.

Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes: Returned to compliance on 08/28/2024. Waste coolant has exceeded its accumulation time (last documented pick up was 11/03/2022 and no accumulation start date was marked on either of the two 55-gal. containers that were observed).

compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Environmental Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on April 4, 2025 that your facility was out of compliance with this requirement. Please note the following important details: 1

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-21-2024
Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: On site to conduct a routine hazardous materials business plan (HMBP) inspection. Consent to inspect the facility was granted by Luis Torres. Observed the facility, perimeter, and hazardous materials storage areas. The following materials were present at disclosable quantities: - Antifreeze - New oil - Used oil HMBP components were not submitted in the California Environmental Reporting System (CERS) for 2024 (see violation). Annual employee hazardous materials training records were reviewed (see violation). A copy of this report has been emailed to gautocare93@gmail.com.

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-21-2024
Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: On site to conduct a routine hazardous waste inspection. Consent to inspect the facility was granted by Luis Torres. Observed the facility and its hazardous waste storage areas. The facility generates the following hazardous waste: - Used oil - Used oil filters, metal - Waste oil filters, non-metal - Waste antifreeze Hazardous waste containers were observed to be improperly labeled and stored closed. Hazardous waste containers and tanks were labeled with the required information by Mr. Torres during the inspection. No hazardous waste was observed in facility trash bins. Emergency response information was available on site. Hazardous waste manifests were available for review. A copy of this report has been emailed to gautocare93@gmail.com.

Eval Division: Orange County Environmental Health
Eval Program: HW
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 10-22-2024
Violations Found: No
Eval Type: Other, not routine, done by local agency

Eval Notes: The purpose of this off-site reinspection is to follow up on the violations cited on the 05/21/2024 inspection report. A manifest was received by this agency indicating that waste antifreeze was hauled from the facility on 08/28/2024. Violation 3030010 has been corrected. No outstanding violation is pending. A copy of this report was emailed

Eval Program: HW
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 11-03-2023
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes:

According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate, and in compliance by March 1st. Please visit <https://cers.calepa.ca.gov/> to access CERS and submit your completed HMBP forms. Failure to submit HMBP forms is a violation of the California Health & Safety Code and California Code of Regulations. Progressive enforcement will be taken by this Agency if a submittal/certification has not been completed within 30 days of this report. If you have any questions regarding this violation, please contact your inspector, Ethan Fleshman, at (714) 559-1054 or efleshman@ochca.com.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

[Click this hyperlink](#) while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Address: 1300 E NORMANDY PL
City,State,Zip: SANTA ANA, CA 92705
Site ID: 541457
CERS ID: 814263
CERS Description: Industrial Facility Storm Water

Violations:

Site ID: 541457
Site Name: Saf T Co Supply Inc
Violation Date: 12-22-2011
Citation: 2014-0057-DWQ - Industrial General Permit
Violation Description: SW - Failure to Obtain Permit
Violation Notes: Plastic debris is exposed to storm water. Facility requires permit coverage under Order No. 97-03-DWQ.
Violation Division: Water Boards
Violation Program: INDSTW
Violation Source: SMARTS,

Evaluation:

Eval General Type: Compliance Evaluation Inspection
Eval Date: 02-03-2012
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Weather: sunny and warm. Site was enrolled recently; has a SWPPP still in draft form. Contact explained that this site manufactures pipe bends and sweeps from straight pipe from a supplier. Process also involves adding a slip couple using a mandrel lubricated with glycerin. Pipe cutting generates plastic bits observed on ground throughout site; mostly on west side. Discussed why plastic bits were an ecological hazard, importance of housekeeping, and visual and WQ monitoring as a BMP performance indicator.

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 11-06-2018
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes:

On site for routine Hazardous Materials and Business Emergency Plan (HMBEP) inspection. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Propane (approximately 20 tanks, ranging from 5-7 gallons, including the tanks installed on multiple forklifts) Facilities storing hazardous materials over the reportable thresholds of 55 gallons for a liquid, 500 pounds for a solid, or 200 cubic feet for a compressed gas are required to complete a Hazardous Materials Business Emergency Plan. This facility has an adjacent warehouse for the storage of other hazardous materials (1236 Normandy Pl, Santa Ana, CA 92705). REQUIREMENT FOR ELECTRONIC SUBMITTAL OF HMBEP DOCUMENTS: This report serves as notice that the facility must submit the following documents electronically within 30 days of this report: - Business Activities - Owner/Operator [Truncated]

Hazardous Waste Summary:

Waste Code: D001
Waste Description: Ignitable Waste

Waste Code: D002
Waste Description: Corrosive Waste

Waste Code: D008
Waste Description: Lead

Waste Code: D018
Waste Description: Benzene

Waste Code: D035
Waste Description: Methyl Ethyl Ketone

Waste Code: D039
Waste Description: Tetrachloroethylene

Waste Code: D040
Waste Description: Trichloroethylene

Waste Code: F001
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent

Eval General Type: Compliance Evaluation Inspection
Eval Date: 04-25-2024
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: On site for non-RCRA large quantity generator (LQG) and remote waste consolidation site inspections. Also present was Ashley Acevedo, OCHCA. Consent to inspect the facility was granted by Donald Hurdle. Observed the facility and its hazardous waste storage areas. The facility generates hazardous waste from automotive maintenance, electrical equipment maintenance, and electrical equipment spill clean-up. Hazardous waste containers were observed to be properly labeled and stored closed. No hazardous waste was observed in facility trash bins, dumpsters, or roll-off bins. Hazardous waste tank and container inspection logs were available for review on this date. The hazardous waste tank assessment for the waste oil tank was certified by a PE on 01/07/2024. Employees are reported to be trained. Documented employee training was reviewed on this date. Emergency response information was available on site. Hazardous waste manifests were available for review. The facility is a remote waste

Eval Notes: Received email to Billing Department from my supervisor regarding this facility. Regarding the billing issue for HazMat for this facility, my supervisor Christine Lane sent this email to the representative from Southern Calif. Edison on 9/18/2013: Good afternoon Maria, I wanted to let you know that we were able to move the haz mat program from the 1327 location to the 1241 location, and inactivate the 1-4 chemicals from the 1241 location. The fees for the 1327 location have been reversed, but you will receive a revised invoice for the 21+ chemicals at the 1241 location. Please let me know if you have any questions regarding these changes, or if the new invoice has errors. Thank you, Christine Christine Lane, REHS Supervising Hazardous Waste Specialist OC Environmental Health 714-433-6210 Office 714-640-9693 Cell 714-754-1768 Fax Visit our website: www.occupainfo.com From: Maria.Zambrano-Lozano@sce.com [mailto: Maria.Zambrano-Lozano@sce.com] Sent: [Truncated]

Eval Notes: Walked the facility with Don Hurdle, Facility Environmental Advisor. Verified ownership as SOUTHERN CALIFORNIA EDISON. The facility is a Non-RCRA Large Quantity Hazardous Waste Generator with waste streams from electrical equipment maintenance, electrical equipment spill clean-up, and automotive maintenance. Inspected hazardous waste storage areas, repair areas, storage areas, the perimeter and municipal trash. No hazardous materials were observed in the municipal trash. Hazardous waste manifests were reviewed. Employee training records were reviewed. The Hazardous Waste Tank Assessment for the waste oil tank was certified by a PE on 12/12/2018. Weekly hazardous waste container inspection and daily hazardous waste tank inspection records were reviewed. Reviewed the emergency response plan. A copy of this report was sent to donald.hurdle@sce.com.

Eval Notes: INSPECTOR COMMENTS: On site for a routine hazardous waste inspection. Consent to enter and conduct inspection activities was provided by David Barr, Environmental Specialist and Blake Matjas, Yard Manager. Business ownership information was verified. The current number of employees is 576. Walked throughout the facility. Observed hazardous waste storage areas. All containers were observed to be closed while not in use and properly labeled. Manifests were available and reviewed. Employees are reported to be trained. Emergency plan is posted in multiple locations throughout the facility. A perimeter walk was conducted and the dumpster enclosure was observed. No signs of illegal dumping were noted.

Reviewed the submittal dated 2/26/2021 for the following sections: Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans. All sections were accepted. The hazardous materials inventory was observed to include the parts washer solution noted on the 2/16/2021 inspection report. The SDS for the FR3 was provided and it indicated that the material is not a hazardous material. The propane noted on the inspection report was used for space heating of employee areas and was below the 500 gallon exception threshold. Violation I169 was observed to be corrected, no further corrective action required. A copy of this report was sent to donald.hurdle@sce.com.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Violations:

Site ID: 412951
Site Name: JS AUTOMOTIVE
Violation Date: 11-08-2018
Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)
Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.
Violation Notes: Returned to compliance on 02/21/2019. Observed the facility and inspected hazardous material storage. The following material was observed in amounts that meet or exceed the minimum volumes required for disclosure and must be added electronically in CERS: - Waste antifreeze (one 55-gallon drum) The business failed to update business plan within 30 days when one of the following occurs: a 100 percent or more increase in the quantity of a previously disclosed material; any handling of a previously undisclosed hazardous material; a change of business address, business ownership, or business name; or a substantial change in the handler's operations that requires

modification to any portion of the business plan. Update all submittal elements effected by the change(s) and electronically submit the update within 30 days.

Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 412951
Site Name: JS AUTOMOTIVE
Violation Date: 10-14-2024
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilograms per month and the quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms; or failure to send acute hazardous waste offsite within 90 days once one kilogram of such waste is generated.

Violation Notes: Returned to compliance on 10/17/2024. Waste oil filters have exceeded their accumulation time limit (last documented pick up and container label indicate filters have been accumulating since 2022). Per Mr. Mendoza, filters have been accumulating more than 180 days. Per Mr. Mendoza, a registered hazardous waste contractor was contacted the day of inspection and will pick up waste oil filters this week.

violations issued during the routine inspection on 11/06/2018. Per Mr. Mendoza (Owner), employees are reported to be trained with waste handling and emergency procedures as of January 2019. In addition, a manifest was provided indicating that the previously observed waste antifreeze was hauled on 11/30/2018. Violations I036 and I053 have been corrected. No outstanding violations remain under the Hazardous Waste Generator program. A copy of this inspection report will be emailed to javxmendoza@gmail.com as requested by Mr. Mendoza.

Eval Notes: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit your HMD/BEP forms within the next 30 days. Businesses may also submit forms via the California Environmental Reporting System. Please verify that all owner information that is prepopulated on the E-Submit Portal is still accurate. Violation Notes: inventory information for all reportable hazardous materials on site at or above reportable quantities.
Returned to compliance on 04/03/2019. The facility disclosed 220 gallons of used oil, but the store manager stated that no used oil has been stored in the last six months. No used oil was observed during the inspection. Corrective Action: Update the hazardous materials inventory to accurately reflect materials and volumes stored onsite, resubmit to CERS within 30 days.

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Address: 1002 S HATHAWAY ST STE A
City,State,Zip: SANTA ANA, CA 92705
Site ID: 563243
CERS ID: 10517329
CERS Description: Hazardous Waste Generator

Violations:

Site ID: 563243
Site Name: PRO AUTOMOTIVE
Violation Date: 01-10-2020
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 01/10/2020. Observed two 55-gallon containers of used oil missing accumulation start dates. Correct accumulation start dates were determined after review of the hazardous waste manifests. Dates were added to the labels at the time of inspection. The violation was corrected.

Violation Division: Orange County Environmental Health
Violation Program: HW
Violation Source: CERS,

Site ID: 563243
Site Name: PRO AUTOMOTIVE
Violation Date: 01-31-2017
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 01/31/2017. Labels were missing required information. Labels were filled in during inspection. Violation abated.

Environmental Interest/Information System:
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.
Registry ID: 110071067769

[Click Here for FRS Facility Detail Report:](#)

Environmental Interest/Information System:
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
Registry ID: 110071838209

Violations:

Site ID: 160340
Site Name: SPEEDWAY No. 4162
Violation Date: 12-05-2018
Citation: 23 CCR 16 2665(b) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2665(b)

Violation Description: "Failure to submit a copy of the overfill prevention equipment inspection results on the Overfill Prevention Equipment Inspection Report Form to the UPA within 30 days after the inspection. "

Violation Notes: Returned to compliance on 03/18/2019. The results submitted for 10/11/18 have flapper valve results but are missing ATG results. ATGs were tested during the monitoring certification; please submit a report for the ATGs within 30 days.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 160340
Site Name: SPEEDWAY No. 4162
Violation Date: 08-01-2016
Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)

Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.

Violation Notes: Returned to compliance on 11/29/2018. Minor Violation: Inventory and/or site map not amended to reflect what is currently on site. Observation: Observed 1 x 55-gallon drum of hazardous liquid purge water stored in reportable quantities during today s inspection. This drum had an accumulation start date of 6/17//2016 and the generator was listed as TOC #150. Corrective Action: Within 30 days, update the inventory and the site map to reflect the amount and location of any reportable quantities of hazardous materials currently on site.

S108742463

Violation Description: Chapter 6.7, Section(s) 25284, 25286
Failure to submit a complete and accurate application for a permit to operate a UST, or for renewal of the permit.

Violation Notes: Returned to compliance on 01/26/2017. CERS review indicates monitoring of UDCs with Beaudreau sensors. The sensors were not operating properly, need to rely on float & chain mechanisms. Need to update tank monitoring pages to indicate use of floats & chains.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 160340
Site Name: SPEEDWAY No. 4162
Violation Date: 12-16-2020
Citation: 23 CCR 16 2632(c)(2)(A)&(B) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2632(c)(2)(A)&(B)

Violation Description: Failure to continuously monitor the interstitial space of a double-walled tank with an audible and visual alarm system.

Violation Notes: Returned to compliance on 12/16/2020. The VR420 sensors monitoring the tank annulars of the diesel and 87 tank systems failed during the inspection. Corrective action: The sensors were replaced, retested and passed. The violation was corrected on site.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 160340
Site Name: SPEEDWAY No. 4162
Violation Date: 01-03-2017
Citation: 23 CCR 16 2636(f)(5) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(5)

Violation Description: "Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested annually: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC)."

Violation Notes: Returned to compliance on 01/26/2017. Beaudreau sensors in UDCs failed to alarm and stop product flow after several minutes of simulating a leak. Design of UDCs prevents earliest detection of fuel by sensors. Need to modify UDC to allow continuous flow of fuel between all compartmentalized sections.

Citation: 23 CCR 16 2636(f)(4) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2636(f)(4)
Violation Description: Failure to meet one or more of the following monitoring requirements in lieu of the requirement to be tightness tested every 12 months: The monitoring system maintains all product piping outside the dispenser to be fail-safe and shut down the pump when a leak is detected. The monitoring system shuts down the pump or stops flow when a leak is detected in the under dispenser containment (UDC).
Violation Notes: Returned to compliance on 01/02/2020. The float and chain mechanism on dispenser 7/8 was unable to shut off flow to the pump. Corrective action: Repair the float and chain mechanism and retest the sensor. Within 30 days, submit test results to this Agency showing that the sensor passed testing. If a Plan Check is required; submit a scope of work, facility modification application, and Plan Check fee to this Agency prior to starting work. Refer to the Underground Storage Tank Modification informational bulletin located at <http://www.occupainfo.com/programs/ust> for information about Plan Check requirements.

Eval Notes: This is a follow-up inspection report to abate the following violations noted during the 1/3/2017 routine inspection. Test results were received from FASTECH on 1/6/2017. Secondary containment testing performed on 1/17/2017 indicating failures of the Diesel Secondary Product Piping and UDC 5/6. Attached is the test report received on 1/26/2017, work order dated 2/27/2017 by V&R Construction Service, Inc. to perform repairs. Bravo compression nut was tightened, then performed secondary containment testing on UDC 5/6 with passing results. Also pressurized diesel secondary piping and performed a new test with passing results. Violation I382 issued this day was CORRECTED. Reviewed UST submittal on CERS, dated 1/26/2017. Monitoring of UDCs was updated to indicated by Floats & Chains as primary and the Beaudreau 406 sensor provides backup monitoring. Both sensors stop flow of product at the dispenser. Violation I582 was CORRECTED The UDC Beaudreau 406 sensors failed [Truncated]

Eval Notes: Onsite to conduct a routine Underground Storage Tank inspection. An annual monitoring system certification was conducted on 12/12/2019 by Fastech. Submit test results to this Agency within 30 days. The facility has three double walled tanks, (15K, 87), (12K, 91), and (12K, diesel) monitored by a Veeder Root TLS 350. The panel is operational for audible visual alarms. All tanks utilize pressurized piping and are double walled. The tank annulars of all tanks are dry and monitored by VR-420 sensors. The STP sumps are monitored by VR208 sensors. PLLD s are installed on all tanks. The UDCs utilize float and chain mechanism. Spill buckets were hydrostatically tested and passed. Overfill prevention is provided by flapper valves. The following documents were reviewed onsite: permit to operate, leak response plan, last monitoring system certification 12/5/2018, spill bucket testing, secondary containment testing dated 2/27/2017, overfill prevention inspection 10/11/2018, and [Truncated]

Eval Notes: Spoke with Douglas Shearer about issues at this site with UDC sensors and outlined options: UDC manuf. has a tray insert that will allow fluids to drain towards sensor and change out sensors to Veeder Root 208; fix Beaudreau sensor communications; or use float & chains and update CERS monitoring plan. Tesoro's preference is to depend on sensors rather than float & chain assemblies by going with first option. Douglas would contact Tesoro staff in No. Cal. that had similar issue and find out what was done. Explained Service Request/permit would be required for replacement. Asked him to let me know what is decided. Also stated there is concern with water in 91 annular. Just making him aware, will know better if a problem after SB989 testing on 1/17/17.

EXXON SERVICE STATION #7-3117 (Continued)

S101629987

Violation Description: Failure to maintain records of repairs, lining, and upgrades on site, or off site if approved by the CUPA, for the life of the UST.

Violation Notes: Returned to compliance on 08/17/2016. An overfill alarm occurred on 6/12/16 and was not recorded on either the alarm log or the designated operator report. Discussed the issue today with the site manager. All priority alarms including overfill and sensor alarms must be recorded on the alarm log with all required details including date, time, location/type of alarm, and follow-up action to correct the alarm. Violation abated today.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 413318
Site Name: EXCALIBUR FUELS # 2
Violation Date: 08-16-2013
Citation: 23 CCR 16 2638 - California Code of Regulations, Title 23, Chapter 16, Section(s) 2638

Violation Description: Failure to test leak detection equipment as required every 12 months (VPH, sensor, LLD, ATG, etc.) and/or submit monitoring system certification to the CUPA within 30 days of completion of the test

Violation Notes: Returned to compliance on 08/21/2013. A year (365 days per year) has passed since the last annual monitoring system certification was performed on 8/15/2012. Have the monitoring system certified at least once a year. Note: this Agency has been notified of a monitoring system certification scheduled for 8/21/2013.

Violation Division: Orange County Environmental Health
Violation Program: UST
Violation Source: CERS,

Site ID: 413318
Site Name: EXCALIBUR FUELS # 2
Violation Date: 08-01-2022
Citation: HSC 6.7 Multiple - California Health and Safety Code, Chapter 6.7, Section(s) Multiple

Violation Description: UST Program -General - Must include violation description, proper statute and regulation citation in the "comment" section.

Violation Notes: Returned to compliance on 08/29/2023. The used oil tank does not have secondarily contained vent piping in accordance with 23 CCR 2636(a)(1).

Violation Notes: to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October 1, 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Division: Returned to compliance on 08/29/2023. The USTs currently utilize audible/visual alarms for overfill prevention. USTs with multiple ATGs that can only activate external alarms when the first UST overfill condition occurs, do not meet overfill requirements.

Eval Notes: On site for a monitor certification and routine inspection. This facility has 3 double walled fuel tanks with double walled piping and 6 dispensers. This site has 1 double walled waste oil tank. All fuel tank turbine sump sensors, fill sump sensors, annular sensors, and UDC sensors were tested for alarm and turbine shut down. The waste oil tank sump sensor and annular sensor activate alarms. The Veeder Root was tested for sensor-out and fail-safe. The overfill alarms were tested for 90 percent overfill. Spill buckets were visually tested and passed. This agency did not witness the leak detector tests. All technician certifications verified today. The following documents were reviewed: - Designated operator statement - expiration dated 12/30/16 - DO monthly inspections with alarm history - Annual employee training records are current for 2016 - Monitor certification dated 8/19/15 - Spill bucket tests dated 8/19/15 - Certification of financial responsibility form [Truncated]

Eval Notes: Sent response to Fatima's email. Spent much time in portal. Hello Fatima, We are having some issues with our esubmit portal, so I am currently not able to see any of the UST documents you submitted, other than the Designated Operator form and the Financial Responsibility form. So, in response to your question, Do we print our submission to send to our station now or should we wait for the approval? , do not wait for our Agency s approval on submissions, go ahead and print your submissions and send to your station. Regards, Michael O Donnell Hazardous Waste Specialist Environmental Health Orange County Environmental Health 1241 East Dyer Road, Suite 120 Santa Ana, CA 92705 modonnell@ochca.com tel: 714-640-4249 fax: 714-754-1768 From: Fatima Hammoud [mailto:fatimahammoud.ef@gmail.com] Sent: Monday, September 09, 2013 12:26 PM To: ODonnell, Michael Subject: Excaliber Fuels #2 FA0025978 URGENT Mr. Mike O'Donnell, Regarding [Truncated]

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-27-2019
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes:

On site to conduct a routine hazardous waste inspection. This facility is verified to be owned by Danny Tran and currently has under 11 employees. Walked throughout the facility and observed the hazardous waste storage area(s). This facility currently generates the following hazardous waste: - Waste oil (stored in 500-gallon underground storage tank) - Used oil filters, metal (1 x 55-gallon drum) Hazardous waste storage areas are inspected at least weekly. An emergency response information card was provided and completed at the time of the inspection. Employees are familiar with hazardous waste handling and emergency procedures. A copy of this inspection report will be sent to: Danny Tran, Owner <born2yeu@yahoo.com>

Eval Notes: On site to conduct a routine hazardous waste inspection. Consent to inspect the facility was granted by Danny Tran. Observed the facility and its hazardous waste storage area. Hazardous waste containers were observed to be stored closed. Observed one 55-gal. container of used oil filters to be unlabeled. A label was filled out and placed on the container by Mr. Tran during the course of the inspection. No hazardous wastes were observed in the trash. The emergency response plan was available on site. Hazardous waste manifests were available for review. A copy of this report has been emailed to born2yeu@yahoo.com.

Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: On site for routine hazardous materials and business emergency plan inspection. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: - Motor oil (2 x 55-gallon drums, 22 x 5-gallon containers; approximate total of 220 gallons) The facility is responsible for identifying all hazardous materials, and to include hazardous wastes, which are above disclosure thresholds (55 gallons of a liquid, 500 pounds of a solid, 200 cubic feet of a compressed gas). If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change. Hazardous Materials documents can be submitted via the California Environmental Reporting System (CERS) located at <http://cers.calepa.ca.gov/>. A copy of this inspection report will be sent to: Danny Tran, Owner [Truncated]

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

LUST:

Name: SHELL STATION #1202 (FORMER)
Address: 1202 EAST EDINGER AVE
City,State,Zip: SANTA ANA, CA 92707
Lead Agency: SANTA ANA RWQCB (REGION 8)
Case Type: LUST Cleanup Site

[Geo Track:](#)

Global Id: T0605900501
Latitude: 33.726512007
Longitude: -117.856206718
Status: Open - Remediation
Status Date: 04/27/2017
Case Worker: KJW
RB Case Number: 083000628T
Local Agency: Not reported
File Location: Regional Board
Local Case Number: Not reported
Potential Media Affect: Aquifer used for drinking water supply
Potential Contaminants of Concern: Gasoline
EPA Region: 9
Coordinate Source: * Historical Geocode - Exact Address Match
Cuf Case: Not reported
Quantity Released Gallons: Not reported
Begin Date: 08/04/1987
Leak Reported Date: 08/04/1987
How Discovered: Other Means
How Discovered Description: Not reported
Discharge Source: Piping
Discharge Cause: Unknown
Stop Method: Not reported
Stop Description: Not reported
No Further Action Date: Not reported
CA Water Watershed Name: Santa Ana River - Lower Santa Ana River - East Coastal Plain (801.11)
Dwr Groundwater Subbasin Name: Coastal Plain Of Orange County (8-001)
Disadvantaged Community: Severely Disadvantaged Community
CA Enviroscreen 3 Score: 86-90%
CA Enviroscreen 4 Score: 80-85%
Military DOD Site: No
Facility Project Subtype: Not reported
RWQCB Region: SANTA ANA RWQCB (REGION 8)
Site History: Environmental reports pertaining to subsurface investigations/testing and site remediation performed in conjunction with this project, as well as the Regional Board case file, should be reviewed in their entirety to obtain further details regarding this cleanup effort. Regional Board staff are not responsible for the accuracy of any professional interpretations provided in reports submitted by consultants working for the responsible party.

Eval Notes: Facility has complied with 2016 HMBEP reporting requirement. Reviewed HMBEP submittal on E-submit. Package was declined and an email was sent to the facility contact. The following corrections are needed:
EMERGENCY PLAN Describe the training plan that your business has implemented. All facilities subject to the hazardous Materials Business Plan Program must have a training program and a written employee training plan for hazardous materials safety and emergency response. The training program should be designed for the business size and type. Initial training is required for new employees (e.g. within 30 days from date of hire) followed by annual refresher training. To satisfy the HMBEP training program elements, the program must, at a minimum, include: -Hazardous materials handling and safety procedures -Emergency response agency coordination procedures -Appropriate use and maintenance of emergency response equipment and supplies -Emergency response plans and [Truncated]

Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-19-2013
Violations Found: Yes
Eval Type: Routine done by local agency

Eval Notes: A routine inspection was conducted. Don Boydston, owner, granted me permission to inspect and accompanied me during the inspection. Mr. Boydston reported no changes in business name, owner, organization, number of employees, or hazardous waste generating processes since the last inspection. The e-mail address in our Agency's database was confirmed. The shop area, waste oil tank storage outside, perimeter of facility and trash container were inspected. No hazardous waste observed in trash container. The tank of waste oil had a hazardous waste label on it that was not legible. The asphalt area around the tank has staining from past oil spills. Continue to take measures to ensure oil, when poured into the tank, does not spill onto ground outside the tank. Manifests for past hazardous waste disposals were on site, but were not immediately available. There has been only one disposal of hazardous waste from the past 12 months, and this manifest (for disposal of 50 gallons [Truncated])

Eval Notes: I was on site to conduct a routine hazardous waste inspection. The business owner, Don Boydston, granted me permission to inspect and accompanied me on the inspection. The shop, outside perimeter of property, and trash dumpster enclosure were inspected. No hazardous waste observed in dumpster. A tank of waste motor oil was observed stored in the shop, and was closed and labeled with required hazardous waste information. Manifests for disposal of hazardous waste were available for review, and in the last 12 months there was one disposal of 50 gallons of used oil. A hazardous waste emergency response plan was posted on the wall of the shop, and absorbent material for spill cleanup is maintained on site.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste. California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

Violation Date: 07-13-2022
Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2716(e)
Violation Description: For designated operator (DO) monthly inspections conducted before October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30 days.
Violation Notes: Returned to compliance on 07/13/2022. The following Designated Operator (DO) inspection reports were not signed and/or dated by the UST Owner/Operator: - 6/6/2022 - 5/6/2022 - 2/10/2022 - 1/10/2022

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-13-2014
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: I was on site to conduct a routine hazardous waste inspection. Adam Birchler, owner, granted me permission to inspect and accompanied me on the inspection. The storage area inside the store (former vehicle service bays), outside paved areas, and trash dumpster enclosure were inspected. No hazardous waste observed in dumpster. An open, unlabeled box of twelve waste fuel filters was observed stored in the trash dumpster enclosure. No other hazardous waste observed on site. Mr. Birchler reports that he has not had any spills at dispensers in the last three years. He attributes his history of no spills to his diligent maintenance of equipment, dispensers, and nozzles, as he claims he is ICC certified to perform vapor recovery systems repair. No hazardous waste disposal records on site, and Mr. Birchler reports that no hazardous waste has been disposed within the last three years. Absorbent material for spill response is maintained in the storage area inside the store, [Truncated]

Eval Type: Routine done by local agency
Eval Notes: On site for routine UST inspection and to observe the annual monitoring system certification. Testing was performed by Martin Schwartz of Orange County Tank Testing Inc. Tester certifications (ICC, VR, VMI) were verified on site. The facility has the following double-walled tanks: - Regular Unleaded Gasoline (87): 12,000 gallons - Premium Unleaded Gasoline (91): 12,000 gallons - Diesel: 10,000 gallons Tanks are monitored by a Veeder Root (VR) TLS-350 system. Turbine sumps and fill sumps are monitored by VR208 sensors. 87 and 91 annulars are monitored by VR420 sensors. Diesel annular is monitored by a VR409 sensor. UDCs utilize float & chain mechanisms. Sensors were tested and operational. Sensor-out and failsafe were performed and verified. Tanks have double-walled pressurized piping with mechanical line leak detectors. Tanks utilize flappers for overfill prevention. Overfill prevention testing was last conducted on 7/21/2021; it must be conducted every 36 months. Secondary con

Eval Notes: Reviewed the submittal dated 7/21/2021 for the following sections: Facility Information, Hazardous Materials Inventory, and Emergency Response and Training Plans. All sections were accepted. Violation I463 and I736 have been observed to be corrected, no further corrective action required. **Please note, you are required to review your facility's electronic submittal yearly and resubmit it between January 1st and March 1st of each year. Please ensure that the review and submittal of all sections in CERS, for this facility, is done by the deadline to avoid violations or possible late fees. A copy of this report was sent to adambirchler76@yahoo.com.

Eval Notes: According to the CERS database, your business remains out of compliance with the annual certification requirement and a violation is being cited. Businesses are required to annually review and certify that their information in the California Electronic Reporting System (CERS) is complete, accurate and in compliance by March 1st. Your business was notified via email on 04/28/23 that your facility was out of compliance with this requirement. Please visit <https://cers.calepa.ca.gov/> to access CERS and submit your completed HMBP forms. Failure to submit HMBEP forms is a violation of the California Health & Safety Code and California Code of Regulations. Progressive enforcement will be taken by this Agency if a submittal/certification has not been completed within 30 days of this report.

Eval Notes: I returned a call to Adam Birchler regarding a HazMat issue. He claims he is being billed for 5-10 chemicals, but that he has only three (diesel, gasoline, and propane). I referred him to our webpage and fee schedule and advised him to change his bill from us to reflect the correct amount. I also told him that I would submit the change to our system. I then printed an RUR form and changed the PE from 5802 to 5801.

Eval Notes: On site to conduct hazardous materials chemical inventory and business emergency plan inspection. Adam Birchler granted consent to conduct inspection.. There has been changes in types of the hazardous material stored on site since last inspection or previous reporting period. Business does not have a soda fountain anymore and Carbon Dioxide dewar was removed from facility in May 2017. Reportable volumes of diesel, gasoline and propane are stored on site. Inventory forms were updated during the inspection. Employee training that includes hazardous materials management has not been provided annually. Training that includes safety procedures in the event of a release or threatened release of hazardous materials, must be conducted within 30 days of this inspection and records be submitted to this agency.

Eval Notes: I was on site to conduct a routine hazardous materials inspection. Adam Birchler, owner, granted me permission to inspect and accompanied me on the inspection. The storage area inside the store (former vehicle service bays), outside paved areas, and trash dumpster enclosure were inspected. I assisted Mr. Birchler in completing the data entry for the on-line HMBP disclosure. The disclosure was updated and re-submitted this date. I verified the hazardous material inventory (gasoline, diesel fuel, propane and CO2) and site map. Diesel fuel should be disclosed as a pure hazardous material type, and FED HAZARD CATEGORIES should list FIRE as a hazard. The site map shows waste antifreeze and there is none on site, so remove this from map, and gasoline tanks are not labeled with contents, so label these tanks with contents. Also, training needs to be conducted annually. Please update and re-submit within 30 days. .

Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: This Agency received a monitoring system certification dated 8/14/2013 for the Veeder-Root TLS 350 monitoring system. The following equipment was certified to have been inspected/serviced in accordance with manufacturer's guidelines and was operational per manufacturer's specifications: in-tank gauging probes; annular space sensors; piping sump sensors; fill sump sensors; mechanical line leak detectors; tank overflow/high level sensors; dispenser containment floats and chains; and, shear valves. Also included was a plot plan of facility showing location of tanks and monitoring equipment and a spill bucket testing report form dated 8/14/2013 with all results PASS.

Eval General Type: Other/Unknown
Eval Date: 08-13-2014
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: e-Submit documents DECLINED, due to: -gasoline should be disclosed once, and as a pure hazardous material type, and do not list hazardous components; -diesel fuel should be disclosed as a pure hazardous material type, and do not list hazardous components, and hazard category should list fire also; -fuel filters should not be disclosed, as not over 500 pounds; -propane should be listed as Pure, Gas, fire and pressure as hazards, and no hazardous components; Also, the map for the BEP is lacking all required elements. Re- submittal later in day reviewed and DECLINED, due to: -FACILITY form: EPA ID# must be zeros after CAL ., not letter o s. (should be CAL000122010, not calooo122010 -CHEMICAL DESCRIPTION form for DIESEL FUEL: diesel fuel should be disclosed as a pure hazardous material type, and FED HAZARD CATEGORIES should list FIRE as a hazard; -MAP for the BEP is not accurate (it shows waste antifreeze, gasoline tanks not labeled with contents).

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-14-2013
Violations Found: Yes
Eval Type: Routine done by local agency
Eval Notes: A Certificate of Return to Compliance (CRC) was issued. Correct the violation and return the CRC within 30 days. A routine hazardous waste inspection was conducted. Bruce Birchler, owner, was present for the inspection and granted me permission to inspect. The storage area inside the store (former vehicle service bays), outside paved areas, and trash dumpster enclosure were inspected. Mr. Birchler states that no hazardous waste is generated. No hazardous waste observed in dumpster. No hazardous waste observed being accumulated on site. Mr. Birchler states that fuel filters are changed once every three years. No disposal records for waste fuel filters were on site (Violation #W093 above). Absorbent material for spill response is maintained in the storage area inside the store, and a business emergency plan was on site in the environmental records storage folders.

Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 09-10-2013
Violations Found: No
Eval Type: Other, not routine, done by local agency
Eval Notes: I returned a phone call to Adam Birchler regarding the 8/14/2013 hazardous waste inspection report I wrote. He talked at length about things. He claims that he has not generated hazardous waste in the last three years, as he has not changed any of his fuel filters in three years and he has not had any spills at dispensers in the last three years. He attributes his history of no spills to his diligent maintenance of equipment, dispensers, and nozzles, as he claims he is ICC certified to perform vapor recovery systems repair. I told him that I would abate the violation I wrote for not having any hazardous waste disposal records on site for the last three years.
